Quite the mixed bag, in terms of both genre and quality...with a general leaning towards the "zanier" end of things. Some very, very cool tracks, and some a bit more in-one-ear-and-out-the-other-ish.

It's a heck of a lot of tracks for the price, though, so I'd happily recommend it to anyone who enjoys a bit of lo-fi, synthy instrumental goodness that spans a whopping variety of moods (including Zappa-esque freak-outs, heartfelt laments, and a smattering of metallic riffage for the cranium-bangers out there). Even *better value, suffice it to say, at a decent sale price.*

Verdict: 8\10.
